Hoodaki Website

Background

The client wanted to create a website for the people who want to travel in and around the world. The Hoodaki website was targeted to provide the best price for the travel choices of an individual. The idea was to make travel dreams come true for everyone.

Solution

The GCT team built the Hoodaki website to help its users save hours of searching across the websites of different airlines, hotels, and travel companies to find cheap flight deals and ideal travel arrangements. This website uses a 3D Secure online payment system. It ensures that its users always have the best deal matching their budget and choice of destination.

Hoodaki website has the following features:

1. Create login
2. Search Flights
3. Search Hotels
4. Search Flight + Hotel
5. Search Car Hire
