## MapleGroveFarms Website

### Background

The client wanted to provide a platform to sell maple products. The MapleGrove website was targeted to provide its services worldwide. The idea was to provide real and pure maple products.

### Solution

The GCT team built the MapleGrove website through which anyone can buy real maple products made in Vermont, USA. This website also provides recipes that can be made using maple products. It also enables its users to search for any product based on its nutritional information (fat-free, gluten-free, organic, pure maple, and sugar-free).

### Result

1. Through our website, the client gained an appreciation for enhanced sustainability.
2. The client is continuously pursuing new and better ways of improving our waste management protocols to make the world a better and greener place to live.
